## About

On Pixie you can create amazing pixel art for free, from anywhere, and share it with the world.

Our tools are free to the world and we promote a pay it forward philosophy. That's why content created with Pixie is licensed under the **Creative Commons ShareAlike license**

As our community grows our aim is to grant all people access to the means of production: ideas, tools and data. The more that we offer, the more that is returned to the community by way of new ideas and new creations.

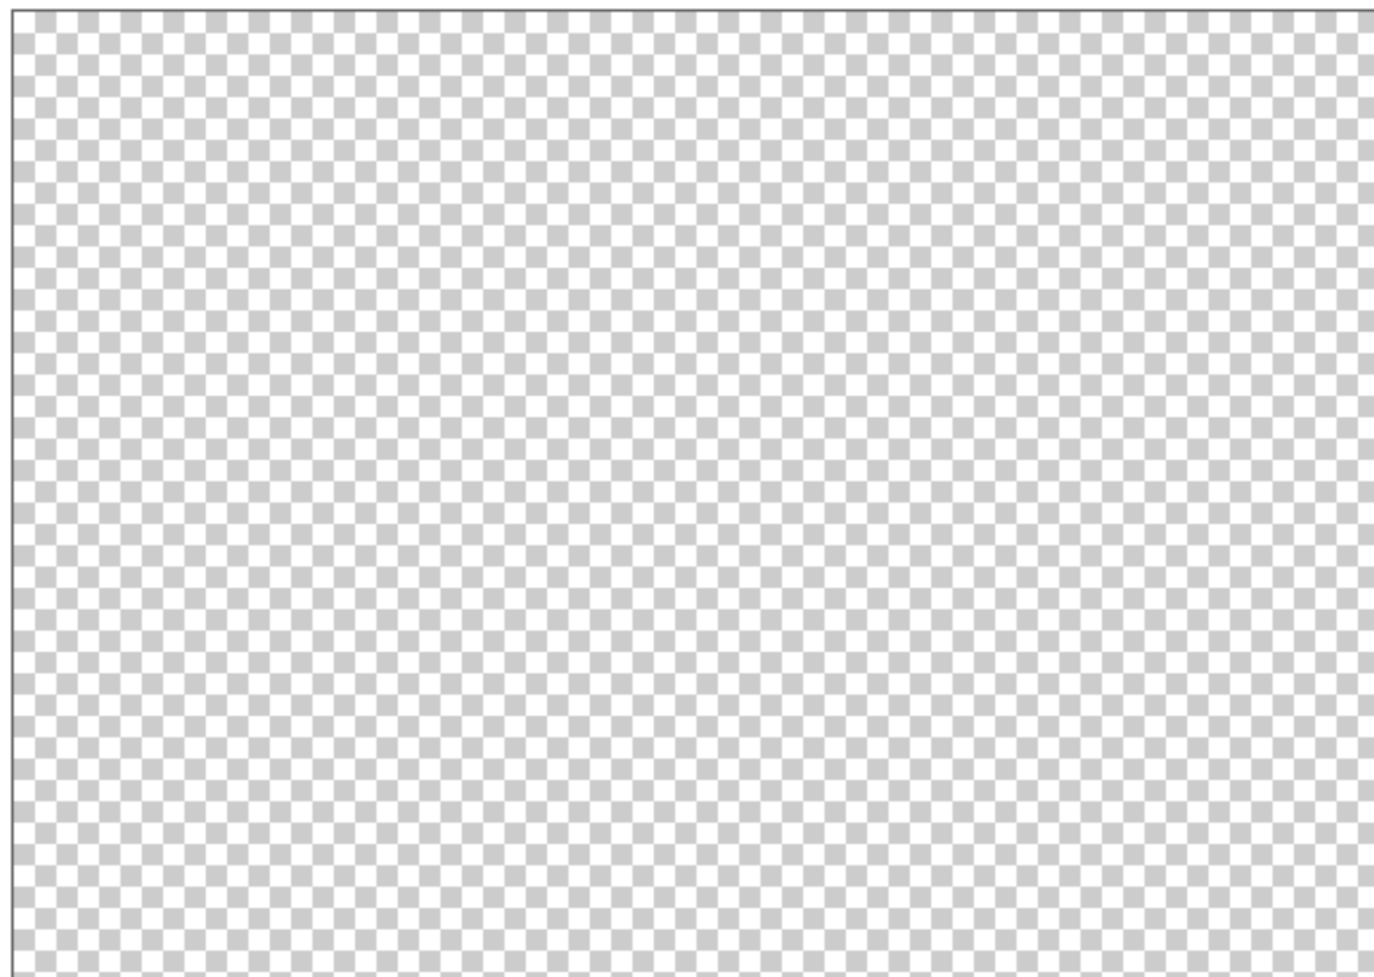

Have fun and enjoy!

P.S. We make use of the amazing **Silk Icon Set**

And also Fancy Avatars **2009 Brandon Mathis**
